The INTERVENTIONS3, artistic project dealing with public space took place in the city of Chișinău and its surroundings throughout August last year, thus anticipating the CHIOSC project. It gathered more than thirty participants from Moldova, Romania, Croatia, Germany and France who stayed in the city for a short term residency creating art works and reflecting over the processes producing Chisinau’s public space today, the city’s visual structure, the memory and experience of its inhabitants’ everyday life.

Their stay and the results of the project is documented in the catalogue, in two different issues of STATE of EMERGENCY magazine / Oberliht Supplement and a in the film that is going to be shown on this occasion.

The project consisted of several phases: city walks, artists’ projects, public presentations and discussions, Ghidighici GRAFFITI session and opening to the public of ARThotel – a space for artistic production and exchange.

The project was also exploring sub-cultural urban practices (graffiti and street art, free cultural goods flux) as a form of resistance to overwhelming processes of commercialization of public space. As a side effect, throughout the city of Chișinău various examples of street art can be found.

The event will serve as a platform for presentation of the project CHIOSC (kiosk) where Ukrainian artists will be invited to participate in a short term residency planned to take place in Chișinău starting with June 2009.

The project CHIOSC aims to establish the premises for collaboration in Europe and worldwide, taking the social, cultural and historical but also political and economic character of Republic of Moldova as a starting point.
