## PROJECTS

### Wind Protest

“Wind protest” is an artistic intervention that is presented in the FLAT SPACE and is connected to the April 2009 events. It was realized by Diana AROSIO, Helen BRANDT, Felix REISBECK and Vladimir US. The work itself makes reference to the freedom of expression and access to information. We invited the public to write their statements, opinions and feelings related to 7th of April events down on a piece of cloth and bring it to us so that we could present them publicly in the FLAT SPACE. Through this work we would like to communicate differently, more effectively and without violence. The work will be accessible to the public till 16<sup>th</sup> of April 2010.

### Compote for Culture

Compote for culture is a delicious and experimental approach to alternative arts funding. It will cost 5 lei per portion. All of the profit generated from the event will be given to support the band No Shagga in the form of a Compote for Culture Grant. The compote will be served starting with 4 pm.

The **CHIOȘC** project, a cultural info-point and a public platform for participation is being launched in the city of Chisinau. It has been conceived in a complex social and political context that marks the period of transition, with the intention to promote contemporary art and youth culture in public space by *contaminating* the urban territory with relevant information. It is meant to encourage active participation of diverse social groups representing often marginalized or less visible domains by putting at their disposal a public platform for manifestation, to strengthen local and develop regional and international network of cultural operators and professionals, to influence the existing public policies and local authorities to extend the access to public space and allow it's less restricted usage.

This project intends to present the diversity and richness of various art practices carried out in different parts of European continent, thus one of its objectives is to invite artists, theorists, cultural workers to participate in CHIOȘC's activities with exhibitions, workshops, screenings, talks etc.

The **FLAT SPACE/APARTAMENT DESCHIS** project is a functional replica of a socialist apartment designed by Stefan RUSU commissioned to represent the identity of CHIOȘC project.

The point of departure for the design of the **FLAT SPACE/APARTAMENT DESCHIS** project was to publically display the private space of a flat limited by the standards of the socialist society, which still is a strong visual element within the contemporary urban and social landscape of East European countries.

The transparency and the openness of the flat give the exposure to an architectural model extracted from the flat building that is composed from few basic elements characteristic to societies in transitions: the main façade with a balcony covered with plastic windows, dining room, kitchen and bathroom. The balcony is a key element, which will function as a cultural info point and will distribute information with cultural content. The rest of the space that is exposed to the public will bear a multifunctional character and will serve as an open platform for public presentations and cultural events.

The **CHIOȘC** project includes the results of the INTERVENTIONS3 project realized in 2008:

The **CHIOȘC** project receives support from the European Cultural Foundation, Cultural Department of the city of Chisinau, Center and Buiucani districts of city of Chisinau, Latin Union (Republic of Moldova office), Romanian Cultural Institute through CANTEMIR Program (2008), CEC ArtsLink, Gulliver Connect, French Alliance Moldova and Henkel Romania.
